What's interesting about „job history“?

- Who pushed for it?
- Where was the subject or position installed?
- What development did the position take?
- What's the new baby's name?

Third Space jobs avant la lettre

50 years of change at the University of Bern

Push factors

- Political pressure
- Political decisions and programs on the federal level
- Competition within the national and the international system
- Trend awareness from within the university

Where was the subject/position installed?

- Rector, Vice-rector
- commission
- Was it part of the general strategy?

What development did it take?

Recommendations

Or: Have we come to terms with our jobs?

In the science debate

- Third Space / Hochschul-professionen
- Definition / description

In the institution / organisation

- Wissenschaftliche Mitarbeiter*innen
- To be found is a general description

On the job / in life

- Terms borrowed from anglosaxon institutions
- Individual job description

Recommendations

- On the job: get aligned with strategy soon.
- In the institution:
 - find a general description of the third-space-jobs, with room for development.
 - find names for the specific jobs.
